At Healdswood Infant and Nursery School, we strive to uphold the integrity of individual subject knowledge and have developed a coherent narrative with explicit teaching of subject content and subject-specific vocabulary. However, curriculum links have been sought across subjects to develop meaningful knowledge connections (schemes), for example in History, links are made with our Science curriculum by comparing and contrasting materials used for toys, 'then and now'. The overarching enquiry questions for the subjects will be linked using a theme to 'connect' the structure of knowledge.

Enrichment

Our curriculum at Healdswood Infant and Nursery schools is ambitious and engaging. Ambitious in the sequencing of coverage and progression. Engaging in the opportunities and enrichment of the learning. These experiences also inspire, excite and enrich our pupils' knowledge and understanding allowing schemes of knowledge to develop. For example, Geography visits to Brierly Nature Reserve provides opportunity for pupils to apply their spatial geography knowledge (maps symbols etc). These experiences also promote emotional and social development enhance, raising the cultural knowledge (e.g. Art exhibition) to support our curriculum and enhance cultural capital of our pupils. This includes an emphasis on the arts and music (e.g. tuition).
